GitHub: Nancy4510 | LinkedIn: Nancy Cruz | Portfolio: https://nancy4510.github.io/

Motivated software engineer and a background in customer service with a passion for building, designing and styling applications. Strong work ethic in a team or in an individual setting and excellent communication skills. I am always eager to learn and grow and take on new challenges.

TECHNICAL SKILLS

HTML, CSS, JavaScript, Bootstrap, SASS, jQuery, SQL, NoSQL, Ruby, Ruby on Rails, PostgreSQL, MongoDB, Mongoose, Node, Express, React, Git/GitHub, WordPress

EXPERIENCE

General Assembly - Boston, MA - Software Engineering Immersive   09/2019 – 12/2019
- 12-week immersive course that teaches full-stack web development
- Built front and back-end applications individually and in a team

Pokémon
An app where a user can create their very own Pokémon and view their creation on a similar-looking pokédex.
Technologies used: React, CSS, Bootstrap, Express, MongoDB, Mongoose and Heroku.
Link to repository: https://github.com/Nancy4510/pokemon-client

Tech Blog
A team project where four of us created a blog for technology. Users can create and view posts and comment on them as well.
Technologies used: HTML, CSS/SASS, JavaScript, jQuery, Handlebars, Bootstrap, Express, MongoDB, Mongoose, and Heroku.
Link to repository: https://github.com/tech-blog-project/tech-blog-client

Help Desk Support
A tech support app where a user can create a ticket if they are experiencing an issue with their computer.
Technologies used: HTML, CSS, JavaScript, jQuery, Bootstrap, Ruby, Ruby on Rails, PostgreSQL and Heroku.
Link to repository: https://github.com/Nancy4510/project2_client

Tic-Tac-Toe
A single-page application of the classic Tic-Tac-Toe game made for everyone to play!
Technologies used: HTML, CSS, JavaScript, jQuery, and Bootstrap.
Link to repository: https://github.com/Nancy4510/SEI-TicTacToe-Project
